

# Morning Greetings

Gear 1

## One switch does one thing (press and release)

I use a talking switch to say good morning to my friends, staff, and new people when I arrive to school in every morning.

## What you'll need

You'll need to record a "Good Morning" message onto a BIGMack talking switch.

[See page 2](#)  
Plug one of my switches into the BIGMack and position my switch so I can use it.
